## + WORK EXPERIENCE

- I have gained practical experience and honed my skills through personal

projects. Over the past few years, I have undertaken various web development projects and experimented with different technologies to create responsive and user-friendly web applications. These projects have allowed me to gain experience in front-end and back-end development, problem-solving, and project management. I have also worked on personal projects using technologies such as Python, Java, and JavaScript. I am a quick learner, a diligent worker, and I am eager to apply my skills and experience in a professional setting.

## + LEADERSHIP-ACTIVITIES

---

- I have developed strong leadership skills through my experiences in group projects and work environments. In group projects, I have taken charge by motivating team members, delegating tasks, and ensuring that everyone is working towards the same goal. In my work experience, I have been given leadership roles where I trained new employees, organized team-building activities, and managed projects. I am confident in my ability to take charge and lead a team to success.
